Welcome to the Spring 2016 edition of Environmental Policy Quarterly, published jointly by the Environmental, Land and Natural Resources Practice Group and the Public Policy and Law Practice Group of K&L Gates. Environmental Policy Quarterly highlights significant developments and issues of public policy relating to the environment and natural resources in the United States and globally.

This edition focuses on reforms to the Toxic Substance Control Act, changes looming for the development of natural gas infrastructure, and the national policy response to the water crisis in Flint, Michigan. We've also included a snapshot of the EPA rules which are expected to be issued or proposed by the end of the year. We are delighted to include contributions by a number of K&L Gates lawyers who focus on these matters on a daily basis.
